

Brief Description

Feature: Log In / Log Out

Log In screen feature has
simplest layout. Users being
either a Manager or employees
for a business, can enter
their ID in provided text box
and click sign-in to access
system. If user credentials
are validated the date
and time will be used as
the time of clocking in by
user.

Sketch of Interface

Date	Time
Enter ID# to sign in	
<input type="text" value="ID"/>	
<input type="button" value="Sign-in"/>	

Notes

- Date on top left
- Time on top right
- Text field for ID#
- Sign-in button
- Upon clicking on sign-in button user is clocked in and data related to user is passed to next screen
