

### Log in / Log out Feature:

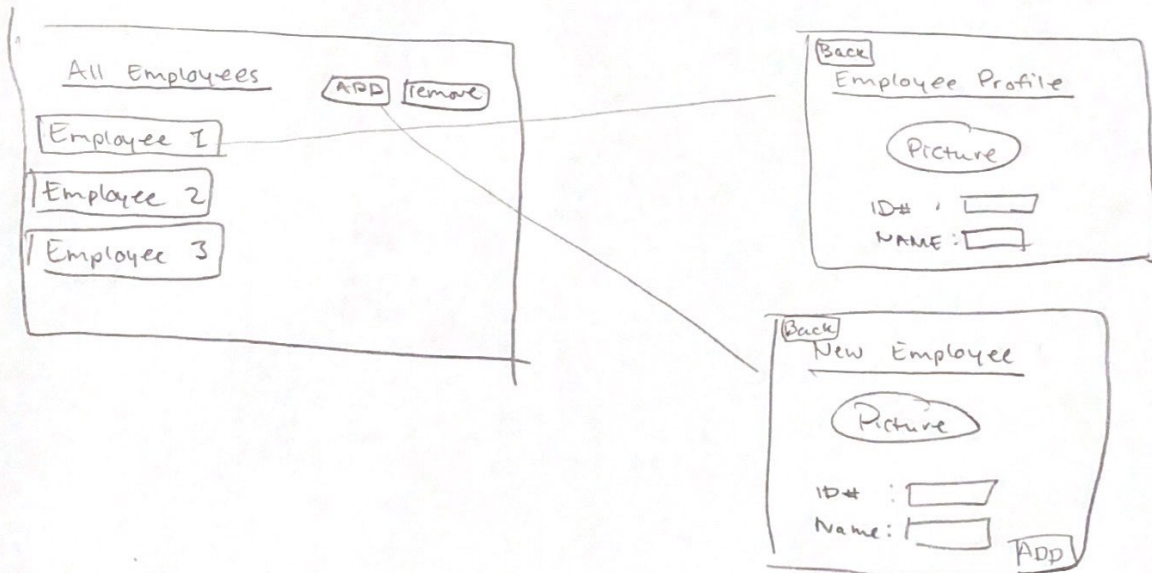

This feature allows the manager or employee log in / log out. This is to keep record of attendance and assure everyone is clocking out on time.

After clicking on either login, the manager or employee will need to type in the login information.

### Customize Employee Profile Feature:

This feature allows the manager to add / remove employees and view employee's profile

Only the manager has access to this feature. After clicking on a employee, their picture, ID #, and name are displayed. After clicking the add button, the manager needs to add a picture, ID #, and employee's name.
