# Clock in / Clock out   (panel 1)

This feature works to keep track of who is clocked in and can be assigned tasks.

Clock in / Clock out   (panel 2)

CLOCK IN/CLOCK OUt (panel 3)

This sketch shows where workers would type in their employee number and clock in or clock out, depending on their shift. The manager button would bring the manager to the ~~start~~ main page for them to manage employees and tasks.
