## Customize Tasks: (panel 1)

This feature allows the manager to customize the tasks that need to be completed. The manager will assign point values to the task to ensure they will be divided evenly among the workers.

Customize Tasks (panel a)

Tasks [Add]

Task #1	[point]
Task #2	[prs]
Task #3	[prg]

Employess: [#]
[Assign]

after clicking add

Add Task

Task: [_____]

Points: [____]

[Add]

Customize Tasks (Panel 3)

The first panel would be accessed when the manager clicks on the "Tasks" button from the main screen. They can view the tasks or assign them. The second sketch is the screen to add a task. It will be added to the list when "Add" is clicked, but it will not be assigned to a worker yet.
